

Life Lines

Realise the Value of Values

Realise the values of yourself and others, to learn what really drives behaviour and work towards a truly high performing team.

The aim of **Life Lines** is for each player to journey across the board, visiting their personal set of values, as if travelling on an underground network. When a player lands on a value, they must explain their choice to the other players before moving on – easy!

However, just as in life, tasks are never simple when external factors come in to play. Re-routing, discussions, dilemmas and other issues must all be faced before the end can be reached. Then, the team as a whole must prove that they can apply the learning to the workplace by carrying out a number of selected activities.

Step 3

Journey across the board, visiting and sharing your values. Here you will experience discussions, dilemmas and learn fascinating facts.

Step 4

Complete Activity Cards related to your chosen topic for learning linked to your objectives.

Step 5

End the game with the Conclusion Card for some positive feedback.

Call at...

Team Values

Create a collective set of team values to ensure a team clear on its culture and goals.

Personal Values

Develop individuals to understand their unique set of personal values and be clear on their personality and motivations.

Personal vs Team Values

Harmonise personal values with those of the team to create members in congruence with the collective aim, striving in the same direction.

Personal vs Personal Values

Manage relationships to create a team understanding of its members' differences, able to capitalise on their strengths.

...as part of your journey to the destination of a truly high performing team.

Away Days

Use it as an ice breaker, opener, closer or even to provide a structure for the day. This will add both variety and a healthy dose of self awareness.

Team Meetings

Use it to promote emotional intelligence amongst the team, address any challenges and set actions to revise processes and behaviours. This will liven up any meeting.

Change Programmes

Use it to identify the personality preferences of staff and determine their unique support needs. This will help regain and maintain balance in times of change.

Assessment Centres

Use it as a fun tool to relax candidates and reveal a truer reflection of their personality. This helps to discover those who will thrive alongside existing values or act as a breath of fresh air!
